Profile

Motivated **Full Stack Developer** with strong modern web technologies from intensive programs and projects. Eager to **design**, **develop**, **test**, and **deploy** scalable web applications. Proficient in **JavaScript/TypeScript**, **React**, **Node.js**, and database management; experienced in **RESTful APIs**, **CI/CD**, automated **testing**. Proven ability to **collaborate**.

Technical Skills

Programming Languages: **JavaScript**, **TypeScript**, **Python**

Frontend: **HTML**, **CSS**, **React**

Backend Development: **Node.js**, **Express**, **RESTful APIs**

Databases: **SQL**, **MySQL**, **MongoDB**

Automated Testing: **Cypress**, **Selenium**, **Postman**

Development Processes: **CI/CD**, **Git** **Hub** (**Git**)

Work Experience

2023-2025 | Google-Reichman | **Full Stack** Development Program

- * Automated **testing** with **Cypress** and **Selenium**.
- * Managed code and **CI/CD**.
- * Built AI apps.

Practical Experience

2025 | Wine Tours & Shop - Tour Management System | **Node.js** | **MySQL** | **Express.js** | **React**

- * **Developed REST API** with **Node.js**, **Express.js**; handled complex schemas & advanced **SQL**.
- * Built **React** client-side apps with **state**, **API communication**, responsive **design**.
- * Implemented **JWT security** and session management.
- * Managed shopping, bookings, guide, and schedule business logic.

2025 | Volunteer Management System | **C#** **.NET** | **WPF**

- * **Developed** multi-layer app for volunteer and task management.
- * Implemented 3-tier core business logic with role-based permissions.

2024 | Spot the Difference Game - Advanced Game Logic | **JavaScript** | **HTML** | **CSS**

- * **Developed game engine** with precise difference detection and **dynamic** **state**.
- * Added difficulty levels, hints, timer, and cumulative scoring.
- * Used animations and **DOM manipulation** for interactive UI.

Education

- * 2023-2025 | Software Engineering Honors Program, Machon Lev – Graduated with high grades.
- * 2023-2025 | Software Engineering Diploma Program - Ministry of Education accredited.

Languages

- * Hebrew - Native | English – Advanced
